BUYERS CONSOLIDATION

BUYERS CONSOLIDATION

Improve value, reduce inventory

Globsync Buyer Consolidation services combine multiple vendor shipments to a dedicated full container.

By using our network of consolidation hubs around the world, increase your efficiency and optimise supply chain opportunity with full container transportation.

By doing this you can benefit from the following:

- Cost effective consolidation of multiple vendors into a dedicated container
- Reduced transportation costs through one FCL shipment
- Effective delivery of inventory at destination, reducing multiple handling costs
- Opportunity to transport your inventory in accordance with your needs
- Dedicated quality inspection and control
- Secure transportation through to your door
- Defined, flexible, transit time solutions
- Simplified pricing
- Management and visibility of the supply chain through our Globsync Login visibility system

About Globsync

- Container loading through our secure network of warehouse
- Transportation through own or Globsync contracts
- Each supplier receives individual supporting documentation, allowing control and payment process
- Visibility on a per shipment, per supplier or per order basis

Key Features:

- Combined LCL Shipments Create FCL Cost Efficiencies
